GOOD SLEUTH, BUT A POOR PROSECUTOR

DAD IS SENT OUT

OGDEN. Dec. 16.—William Reast, a special officer employed by the city, is the real sleuth when it comes to arresting violators of the speed ordinance and those who leave their horses untied or unblanketed in the cold weather, but is saily deficient as a prosecuting attorney.

Reast essayed this role in the police court this morning, and it cost him just \$10 for his first appearance. Judge Murphy limposed the fine, after holding Reast suity of contempt of court.

The case of John Unk, a delivery boy, charged with leaving his team untied at Washington avenue and Twenty-sixth street, was on trial. Reast, having made the arrest, was allowed by the court to question the defendant on the witness stand.

Judge Murphy didn't like the brow-beating tactics employed by the question-er and warned him. Reast didn't heed the court's instructions and was promptly fined for contempt and hustled out of the courtroom by another officer, with instructions to hold him in the city jall until the fine was paid.

of the Southern Pacific rallway, known
as the "unit" system, which abolishes the

popularity all over the Harriman system.
The system went into effect today on the
Kansas division of the Union Pacific and
is being adopted on other divisions of
the road. The "unit" system was suggested some time ago by Major Hine, assistant to Vice President Julius Kruttschnitt, to avoid "red tape" and useless
detail in the transaction of business.

by Mr. Jones was that of several boys
who had been engaged in pilfering coal
from the local coal companies. It seems
that this practice had been carried on
for a number of years and has been
brought to the attention of the authorities a number of times, but beyond
haling the guilty ones into court and giving them a lecture, nothing of lasting
good was ever done. This time, however, the coal companies are determined
to put a stop to it, and insist that complaints be issued and the ones implicated
in picking coal be prosecuted. Mr.

SPANISH FORK, Dec. 18.—Leland and Benjamin do not propose to be behind Spanish Fork in the way of electric lights. The Benjamin people held a meeting Monday night, and the Leland people met last night, and the outcome of the meetings will be a joint stock company for the purpose of furnishing light and power for these communities. It is understood that the Benjamin people have subscribed \$7500 and the Leland people \$4000 toward the project. They will own their own electric light and telephone poles and get their electricity from Spanish Fork. This will help Spanish Fork to consume the light and power the city has agreed to take from the government, and Leland and Benjamin will be benefited by having light and power on equal terms with the Spanish Fork people.
